ABOUT ME

Enthusiastic software developer with a strong foundation in programming and problem-solving. Proficient in C, Python, JavaScript, and modern web technologies (HTML, CSS, JavaScript). Experienced in Data Structures, Algorithms, and Database Management Systems (DBMS). Currently pursuing a Computer Science degree at Darshan University, I bring adaptability, a strong work ethic, and a continuous learning mindset to every project.

EDUCATION

Class X- Gujarat Board	2021
Vidyaniketan School - Rajkot	
Class XII PCM- Gujarat Board	2023
Vidyaniketan School - Rajkot	
Bachelor of Technology (B.Tech) in Computer Science	2023 - 2027
Darshan University	
	• Sem 1-5 (CPI) : 7.49

SKILLS

Programming Languages: • C • JAVA • PYTHON • JAVASCRIPT

Framework: • React • Next.js • Express

Database Management System: • MySQL • PostgreSQL • MSSQL • MONGODB

Tools: • GITHUB • GIT

CoreSkills: • DSA • DBMS • OOP

PROJECTS

RESOURCELY (Resource Management System)

Tech Stack: Next.js, TypeScript, Prisma, PostgreSQL, Tailwind CSS

- Built a web app to manage resources with role-based access for managers and team members.
- Implemented resource CRUD operations with validation and relational data modeling using Prisma and PostgreSQL.
- Added dashboards to track allocations, availability, and recent activity for better utilization
- Integrated authentication, protected routes, and responsive UI using modern Next.js app router patterns.

INSURE-FRAUD-AI (Insurance Fraud Detection System)

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Streamlit, Matplotlib, Seaborn

- Built an end-to-end ML application to identify fraudulent insurance claims using supervised learning models.
- Performed data cleaning, preprocessing, feature encoding, scaling, and EDA to improve model reliability.
- Trained and evaluated multiple models with cross-validation and hyperparameter tuning, focusing on fraud-specific metrics.
- Visualized model performance and data insights using interactive charts and graphs and developed a Streamlit-based UI for real-time claim input and fraud prediction.

CERTIFICATION

- **Code2Trade** FinTech Hackathon
